It is Written

Speech delivered to the United Nations

When we realize the importance of light when we see darkness.
We realize the importance of our voice when we are silenced. In the North of Pakistan we realized the importance of education when we saw the guns. The wise saying "The pen is mightier than the sword" is not just a saying. We are afraid of guns and pens. The power of education frightens them. The power of the voice of women frightens them. They killed 14 innocent students in the recent attack in Quetta. And that is why they are blasting schools every day because they are afraid of change and equality that we will bring to our society. I remember that there was a boy in our school who was asked by a journalist why he wanted education? He answered very simply by pointing to his book, "It is written."
